

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application.

Listing of Claims:

Claim 1 (Previously Presented): A method comprising:

capturing an image containing text in a first language with a digital camera of a device;
establishing with the device a wireless connection with a network;
transmitting the image containing text in the first language from the device over the
network via the wireless connection;
receiving at the device a translation of the text in a second language over the network via
the wireless connection; and
displaying at the device the translation of the text in the second language.

Claim 2 (Canceled).

Claim 3 (Original): The method of claim 1, further comprising displaying the image.

Claim 4 (Original): The method of claim 1, further comprising displaying the image and
displaying the translation of the text in the second language simultaneously.

Claim 5 (Canceled)

Claim 6 (Original): The method of claim 1, wherein the image is a first image containing first
text, the method further comprising:
transmitting a second image containing second text in the first language over the network;
and
receiving a translation of the first text and the second text in the second language over the
network.

Claim 7 (Original): The method of claim 6, further comprising transmitting the first image and the second image over a network in response to a single command from a user.

Claim 8 (Original): The method of claim 6, further comprising displaying one of the translation of the first text and the translation of the second text in response to a command from a user.

Claim 9 (Original): The method of claim 1, further comprising compressing the image.

Claim 10 (Canceled).

Claim 11 (Original): The method of claim 1, further comprising prompting a user to provide additional information comprising at least one of an account number, a password, an identification of the first language, and identification of the second language, a dictionary and a server location.

Claim 12 (Previously Presented): The method of claim 1, wherein the network comprises a cellular telephone network.

Claims 13-15 (Canceled)

Claim 16 (Previously Presented): A device comprising:

- a digital camera that captures an image containing text in a first language;
- a transmitter that transmits the image over a network via a wireless connection so that the text can be translated by a different device;
- a receiver that receives a translation of the text in a second language over the network via the wireless connection; and
- a display that displays the translation of the text in the second language.

Claim 17 (Canceled).

Claim 18 (Previously Presented): The device of claim 16, wherein the display displays the translation and the image simultaneously.

Claim 19-21 (Canceled).

Claim 22 (Previously Presented): The device of claim 16, wherein the device comprises a cellular telephone that establishes the wireless connection so that the text can be translated by the different device.

Claims 23-25 (Canceled)

Claim 26 (Previously Presented): A system comprising:

a client device including a digital camera that captures an image containing text in a first language, a client transmitter that transmits the image over a network to a remote server via a wireless connection so that the text can be translated by the remote server, a client receiver that receives a translation of the text in a second language over the network from the remote server via the wireless connection, and a display that displays the translation of the text in the second language; and

the remote server including a receiver that receives the image over the network from the client device, a translator that generates the translation of the text in the second language and a transmitter that transmits the translation over the network to the client device.

Claim 27 (Canceled).

Claim 28 (Previously Presented): A method comprising:

capturing a first image containing text in a first language with a digital camera of a device;

generating from the first image a second image containing the text in response to a command from a user, wherein generating the second image includes editing out one or more portions of the first image that do not include the text;

transmitting the second image from the device over a network so that the text can be translated;

receiving at the device a translation of the text in a second language over the network;
and

displaying at the device the second image and the translation.

Claim 29 (Previously Presented): The method of claim 28, further comprising establishing a wireless connection with the network.

Claims 30-31 (Canceled).

Claim 32 (Previously Presented): The method of claim 28, further comprising displaying the second image and the translation simultaneously.

Claims 33-36 (Canceled).

Claim 37 (Previously Presented): A method comprising:

capturing an image containing text in a first language with a digital camera of a device;

transmitting the image containing text in a first language from the device over a network so that the text can be translated;

receiving at the device a translation of the text in a second language over the network;
and

displaying the image and the translation simultaneously at the device.

Claim 38 (Previously Presented): The method of claim 37, further comprising:
storing a plurality of images containing text; and
transmitting at least a portion of the plurality of images over the network in response to a single command from a user.

Claim 39 (Canceled).

Claim 40 (New): The method of claim 28, further comprising displaying the first image on a touchscreen of the device, wherein the command includes a user input circling the text with a stylus on the touchscreen.
